

## A. Rewards

time limit per test: 1 second

memory limit per test: 256 megabytes

input: standard input

output: standard output

Bizon the Champion is called the Champion for a reason.

Bizon the Champion has recently got a present — a new glass cupboard with  $n$  shelves and he decided to put all his presents there. All the presents can be divided into two types: medals and cups. Bizon the Champion has  $a_1$  first prize cups,  $a_2$  second prize cups and  $a_3$  third prize cups. Besides, he has  $b_1$  first prize medals,  $b_2$  second prize medals and  $b_3$  third prize medals.

Naturally, the rewards in the cupboard must look good, that's why Bizon the Champion decided to follow the rules:

- any shelf cannot contain both cups and medals at the same time;
- no shelf can contain more than five cups;
- no shelf can have more than ten medals.

Help Bizon the Champion find out if we can put all the rewards so that all the conditions are fulfilled.

### Input

The first line contains integers  $a_1$ ,  $a_2$  and  $a_3$  ( $0 \leq a_1, a_2, a_3 \leq 100$ ). The second line contains integers  $b_1$ ,  $b_2$  and  $b_3$  ( $0 \leq b_1, b_2, b_3 \leq 100$ ). The third line contains integer  $n$  ( $1 \leq n \leq 100$ ).

The numbers in the lines are separated by single spaces.

### Output

Print "YES" (without the quotes) if all the rewards can be put on the shelves in the described manner. Otherwise, print "NO" (without the quotes).

### Examples

input	output
1 1 1 1 1 1 4	YES
input	output
1 1 3 2 3 4 2	YES
input	output
1 0 0 1 0 0 1	NO

### Codeforces Round #256 (Div. 2)

Finished

#### → Virtual participation

Virtual contest is a way to take part in past contest, as close as possible to participation on time. It is supported only ACM-ICPC mode for virtual contests. If you've seen these problems, a virtual contest is not for you - solve these problems in the archive. If you just want to solve some problem from a contest, a virtual contest is not for you - solve this problem in the archive. Never use someone else's code, read the tutorials or communicate with other person during a virtual contest.
